

## PCI DSS QUARTERLY HEALTH CHECK

As a Payment Card Industry Qualified Security Assessor (PCI QSA) Company, QRC aims to provide pioneering, hassle-free and cost-effective services for the PCI Compliance.

By conducting a “Quarterly Health Check of your Organisation PCI DSS Compliance”, QRC will provide the insights on:

### Why PCI Health Check is Important

Organization adherence to PCI standards must not only be authenticated every year but shall also be regularly checked to,

- Verify compliance with the requirements of PCI standard and organizational security policies and procedures
- Ensure protection against emerging security threats
- Include changes if any, in the applicable regulatory standards and
- Address internal information technology changes that may compromise cardholder data

#### Consequences of not performing the health checks?

- Missing out the date of PCI DSS re-certification
- Failure to submit the timely compliance reports
- Increased risk of security breaches due to vulnerable systems
- Business and financial implications
- Reduced customer trust
- Legal or contractual actions
